AARON TEMPLER BIOGRAPHY

Aaron Templer is an independent consultant who creates brand strategies and integrated marketing and communications plans. Put another way: uncovering stories, and telling them well. He also directs and manages the execution of the plans he creates for clients with a clear and objective perspective free from traditional agency revenue models. With a deep business background, he offers speed-to-value across many industry contexts.

Aaron cut his professional teeth at Quark, Inc. where he presented and trained some of the world's leading advertising and creative agencies on topics related to print and multimedia design and production workflow. Today Aaron presents as a keynote speaker, is an adjunct professor at the University of Denver's Daniels College of Business, sits on panels, and facilitates workshops on the topics of the social web, branding, the creative mind, and marketing and communication.
